About Us

Our team of IT experts is dedicated to delivering customized solutions that evolve with your business, ensuring your success every step of the way.

Goal & Mission

Our Goal

To help create positive, enduring change in the world.

Our Mission

To help our clients digitally transform their businesses to lead in the market.

Our Values

To establish a thriving business foundation by maintaining high standards and building exceptional teams.

Who We Are?

We are believers of change! A change driven by technology and innovation. We help businesses and individuals in adapting as well as adopting digital transformation. Our aim is to change people's lives and improve businesses with our progressive and innovative technology solutions.

What We Do Best

We start by listening to the issues, requirements, challenges and Objectives. The process continues with an effort to understand the business, market sector and competitors to develop information which is combined with our technical knowledge, expertise and research in order to provide the best solution at the lowest cost.

Rules of Empowerment

A key component of our culture and commitment to our customers are our Rules of Empowerment, which provide our employees a framework for making critical business decisions without having to ask management for approval. If an employee has an idea to improve a work process, support a customer, or needs to make a snap decision, we trust them to if they can answer yes to these four questions:

- 1) Is it right for the customer?
- 2) Is it right for Catapult Systems?
- 3) Is it ethical?
- 4) Is it in line with Catapult's core values?

Our Core Values

We're enthusiastic learners and seasoned inventors. Together, we can create solutions that serve not just technology but the humans behind it.

Collaboration

Our Agile mindset ensures communication, transparency, and buy-in at every stage of a project.

Pragmatism

We build things that solve problems now and work for years into the future.

Humanity

Our people play a crucial role in shaping our clients' experiences with our technology.

Spark

Spark: We help clients imagine a better way to get their jobs done. And then we build it.

Passion

Passion for your work fuels enthusiasm, leading to higher job satisfaction and better results.

Innovation

Make it happen by taking bold, innovative action and pushing beyond the status quo.
